SUBJECT INDEX TO VOLUME 1

2-Acetylaminofluorene (2-AAF), chronic dose-response studies of in mice, 25
Aflatoxin B_1, light, and riboflavin, 353
2-Aminoanthraquinone, nephrotoxic effect of in rats, 1
Anagyrine, as probable teratogen, 887, 899
Anesthetics, toxicity of, 839
Animal foods, lead in, 461
Antischistosomal compounds, genetic activity spectra of, 243
Antischistosomal drugs
  clinically available, 191
    hycanthone, 203, 211, 329
  indazoles, 281
  long-term toxicity of, 173
  and mutagenicity, 271, 273, 281
  niridazole, 203, 329
  oxamniquine, 211
  potential carcinogenicity of, 323
  thioxanthenones, 243, 281
Arsenic
  and cancer, 1003
  intracellular effects of on renal proximal tubule cells, 505
^{73}As, localization and histochemical correlation of, 981
Asbestos, exposure to, 377
Assay restrictions from hormone determination, 669
Auto emissions, biologic effects of, 705

Barbiturate hypnosis, effect of methylchloroform on, 807
Benzene inhalation, effects of, 531
Benzo[*a*]pyrene, elution of from carbon particles, 967
Benzo[*b*]thiophene derivatives, toxicity of, 515
Benzothiopyranoindazoles, genetic activity spectra of, 243
Biologic half-life in adipose tissue, 683
Blood chemistry changes and 2,4,5-T, 469
Body weight protein, THC, and ethanol, 441
Bovine growth hormone, metabolic effects of, 793
Bowel cancer and occupation, 75

Calcium accumulation and tin chloride, 749
Cancer
  and arsenic, 1003
  bowel, and occupation, 75
Carbon monoxide poisoning, effect of on LDH and CPK, 1017
Carbon particles, BaP-coated, 967
Carcinogenesis, mammary gland in, 551
Carcinogenic arylacetamides, enzymic deacetylation of, 421
^{109}Cd, metabolism of, 1055
Cell culture transformation, and antischistosomal drugs, 323
Chlordane, effects on estuarine organisms, 485
Chloroform, toxicity of, 839
Chromium-induced nephrotoxicity, 449
Chronic lead ingestion, sublethal effects of in ducks, 929
^{14}C-labeled estradiol metabolites, 607
Creatine phosphokinase (CPK) and carbon monoxide, 1017
Crooked calf disease and alkaloids, 899
Cytogenic test, *in vivo*, 921

Dieldrin-parathion interaction in mice, 829
Dieldrin toxicity and discrimination reversal in monkeys, 737
Diethylstilbestrol
  biological aspects of, 587
  and reproductive performance, 817
Dimethylnitrosamine demethylation repression, 395
Dinoseb teratogenicity and food derivation, 107
Discrimination reversal and dieldrin toxicity, 737
Dithiocarbamates, environmental aspects of, 713
DNA damage and povidone-iodine, 977

Engine exhaust and catalytic converters, 705
Estrogen
  concentrations in animal tissues, 617
  effects on pituitary prolactin and LH secretion, 641

Estrogen (*continued*)
responses induced by, 561
receptor binding, 561
Estuarine organisms and chlordane, 485
Ethanol, effect on chick embryos, 441

FD&C Red No. 2, teratological evaluation of, 851, 857, 863, 867, 875
Fluorene, toxicity of, 839
Formate, metabolism of in rats, 13
Fungicides, environmental health aspects of, 713

Generally recognized as safe (GRAS) list, 921

Hair dyes
and dermal carcinogenesis, 433
toxicity of, 1027
Hematologic changes and 2,4,5-T, 469
Hepatic δ-aminolevulinic acid in lead-intoxicated rats, 127
Heptachlor, toxicity to estuarine organisms, 955
Herbicide metabolism, 757
Histopathologic changes and 2,4,5-T, 469
Hormone determinations, assay restrictions from, 669
Hormone research, 543
Host-mediated assay, 921
Houseplants, toxicity of, 939
Human diploid cells, DNA damage in, 977
Hycanthone
and chromosome abnormalities, 305
genetic effects of, 211, 301
teratogenic activity of, 309
treatment of *Schistosoma mansoni*, 203
Hycanthone methanesulfonate-induced dominant lethality, 293

Indazoles, mutagenicity testing of, 281
Indole derivatives, toxicity of, 515
Insecticides and houseflies, 521
Irreversible delayed toxicity, risks of, 133

Lead in animal foods, 461
Light, riboflavin, and aflatoxin B_1, 353
Liver metabolism in rats, effects of PCBs and thiamin deficiency, 91
Liver and serum enzyme study, pathology and electron microscopy of, 689
Lupin alkaloids, 887, 899
Luteinizing hormone secretion, effects of estrogen on, 641
Lymphatic response to TOTP in chickens, 777

Mammary gland in carcinogenesis, 551
Mammary tumor virus, as model for viral carcinogenesis, 545
Mercury pollution, control of, 409
Metabolism, effect of methylchloroform on, 807
Metals, influence on metallothionein-like proteins, 991
Methanol, biohazards of, 153
Methylchloroform, route and solvent effects, 807
1-Methylindole derivatives, toxicity of, 515
Microsomes, deacetylation by, 421
Mixed function oxidase system (MFO), acute toxicity of, 39
Mutagenicity and antischistosomal drugs, 271
Mycotoxins, effect of on lysosomes, 985

NADH-dependent methemoglobin reductase, ontogenetic development of, 787
Nephrotoxic effect of 2-aminoanthraquinone, in rats, 1
Neurospora crassa, effects of antischistosomal drugs on, 271
Niridazole treatment of schistosomiasis, 203
Nonhydrocarbon repressors, 395
Nucleic acid synthesis, THC, and ethanol, 441

Occupation and bowel cancer, 75
Oxamniquine
effect on chromosomes of schistosomiasis patients, 1023
genetic effects of, 211

Palladium salts, effect on drug metabolism, 1067
Parathion-dieldrin interaction in mice, 829
Phenobarbital
effect on dinoseb teratogenicity, 107
pretreatment of mice, 39
Pituitary prolactin, effects of estrogen on, 641
Platinum salts, effect on drug metabolism, 1067

Polychlorinated biphenyls (PCBs)
effects of, 91, 683, 689
and thiamin deficiency, 91
toxicity of, 91
Polydimethylsiloxanes, studies of, 909
Polynuclear hydrocarbons and DMN demethylation repression, 395
Povidone-iodine and DNA damage, 977
Primary immune response in rats, THC suppression of, 119
Prostaglandin E_1, subacute effects of, 495
Protocols for dominent lethal test, 921

Red dye No. 2, 851, 857, 863, 867, 875
Renal arsenate toxicology, 505
Renal chromium accumulation and chromium-induced nephrotoxicity, 449
Reproductive endocrinology model, chimpanzees as, 657
Reproductive performance and diethylstilbestrol, 817
Riboflavin, aflatoxin B_1, and light, 353

Schistosomiasis
drugs for treatment of, 335
mansoni, treatment of, 203
and oxamniquine, 1023
schistosomicides against, 229
significance to human ecology, 185
as worldwide problem: pathology, 175
Schistosomicides
mutagenic properties of, 329
against *Schistosoma mansoni*, 229
toxicity of, 329
Serum lactate dehydrogenase (LDH) and carbon monoxide, 1017
Sex chromatin determination in rats, 823
SKF-525A, effect of on dinoseb teratogenicity, 107
Spirometra growth factor, effects of, 793
Substrate toxicity in MFO system, 39

Tebuthiuron metabolism, 757
Δ^9-Tetrahydrocannabinol (THC)
effect on chick embryos, 443
immunosuppression in rats, 119
toxicity, 769
Thioxanthenones
genetic activity spectra of, 243
mutagenicity testing of, 281
Thiamin deficiency
effect of liver metabolism in rats, 91
and polychlorinated biphenyls, 91
Tin chloride and calcium accumulation, 749
2,4-Toluenediamine, and dermal carcinogenicity, 433
Toluene inhalation, effects of, 531
1,1,1-Trichloroethane (*see* Methylchloroform)
2,4,5-Trichlorophenoxyacetic acid, 1041
changes induced by, 469
Tri-*o*-tolyl phosphate, lymphatic response to, 777

Vindesine, toxicology of, 843
Vinyl chloride, problems of, 47
Vinyl chloride monomer pharmacodynamics, 381
Viral carcinogenesis, mammary tumor virus as model for, 545

Whole-body autoradiography in mice, 981
